Annotations

- 1 The course schedule(s) has to be in this format: "29-Apr-2008 to 2-May-2008". Multiple dates have to be separated by commas.
- 2 If this option is checked, then the course being published or edited gets stored in a list for the administrator to view and use for creating the Fixed Dates Course Calendar.

The Fixed Dates Course Calendar will be created/updated manually, each time the course schedule changes.
